**Attic  
Ventilation**

Protect Your Slate Roof  
From Premature Deterioration  
By Providing Effective

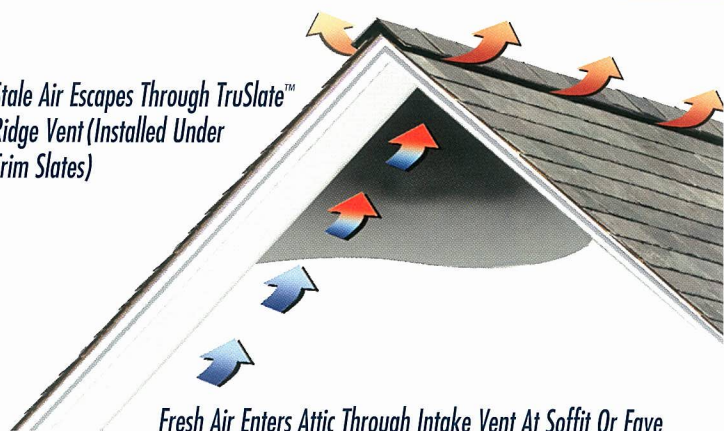

# Attic Exhaust Ventilation

**Effective attic ventilation is critical for a long-lasting roof! A properly balanced attic ventilation system will help to:**

- Remove excess heat and moisture to protect your roof from premature deterioration
- Prevent roof rot in your attic or roof deck
- Minimize peeling and extend the life of exterior and interior paint
- Limit the growth of harmful mold
- Safeguard your attic possessions against mildew damage
- Guard against ice damming in harsh winter climates
- Possibly reduce excessive heating and air conditioning costs

TruSlate™ Ridge Vent is a key part of the GAF-Elk TruSlate™ Solution, and has even earned the prestigious Good Housekeeping Seal (see reverse).

*Stale Air Escapes Through TruSlate™ Ridge Vent (Installed Under Trim Slates)*

*Fresh Air Enters Attic Through Intake Vent At Soffit Or Eave*
