InSpire Roofing Products
We appreciate art.

“InSpire is a premium product. It looks great and the homeowner loves it. Our roofing guys and the general contractor really liked it and the guys had an easy time installing it.” - Sandor Jenei, Euro Roofing, Irvine, CA

At InSpire, our mission is to provide you with an incredible roof. One that connects you with natural beauty, delivers the ultimate home protection and requires only the simplest installation with virtually no maintenance.

Our appreciation for art allows us to bring you the most innovative and complete color palettes along with textures that stunningly reflect natural cedar and slate.
We appreciate science.

Our appreciation for science results in advanced manufacturing with top-rated Class A fire resistance, Class 4 impact resistance, 110 mph wind uplift rating and a limited lifetime warranty.

Driven to bring you incomparable total performance, see why roofers around the country trust, prefer and recommend InSpire Shake and Slate Roofing, and why homeowners absolutely love their roofs.
InSpire Shake has beautifully achieved what was once impossible – creating a synthetic shake that is easy to love and without maintenance. There is none of the notorious rotting, cracking, splitting or chemical treating that natural cedar often regularly requires. Instead, the roof is extremely durable and fire risk is minimized with our top-level Class A fire resistance, especially noteworthy for communities prohibiting cedar roofs or requiring Class A roof systems.

"I would not hesitate to put it on a roof again. Eighty-five percent of our business is repeat or referral. We like to steer people to products that we know are going to hold up." - Don Oelrich, Rooftoppers, Los Angeles, CA

751 Cedar Brown
InSpire Shake’s proprietary finishing delivers delicate shade variations with authenticity that is harmonious and natural to the eye. Our tiles’ sublime, unified color is factory-collated along with the correct proportions of our 10”, 7-1/2” and 5” shake widths to give you the ideal shake roof.
For centuries, slate roofing has been desired for its durability and beauty. With authentic surfaces and edges, InSpire Slate highlights the handsome character of slate, at the same time enhancing roof performance through innovative tile design. Unlike natural slate, InSpire won’t break or delaminate.

“A lot of people think it’s actually real slate because of the color and how authentic it looks. InSpire really shines for us.”
- Sheldon Robinson, Sheldon Robinson Custom Homes, Frisco, TX

718 Grey/Black Blend
InSpire Slate gives you the power to evoke both historical elegance and outstanding modern-day style. Our slate tiles are created with molds cast from real slate to capture genuine peaks, plateaus and curves. Color-through design and UV stabilization ensure “stay-true” richness for traditional colors such as Forest Green and Plum, bold tones like Brick Red and unique selections such as Cool Roofing Sand and Grey/Black blended tiles.
Few roofs can be described as breathtaking. But that’s the effect of our InSpire Mixes. With uncommon, dynamic style, this architectural roofing features a variety of beautifully balanced color to turn a roof into a work of art. Using expertly-crafted color ratios, InSpire Mix tiles are bundled and shipped ready for application, providing installations that are cleaner and faster. With exceptional character, the InSpire Mix roof is uplifting and sophisticated like no other.

“InSpire is a great-looking product. You can’t argue with the realism.”
- Bill Broeker Jr., Vice President of Old Style Roofing

- 732 Granite
Cool Roofing

InSpire Slate Cool Roofing is the graceful way to live more sustainably. Our cool colors reduce a home’s carbon footprint and reduce monthly energy bills by cutting peak cooling demand by up to 15 percent. Advanced colorants help reflect sunlight and reradiate heat away from the roof, reducing the heat transferred into a home.

“InSpire’s innovation influenced the product decision very much. From the install, to the quality of the product, to the homeowners’ viewpoint, it’s really a good product.”
- Chuck Harrison, AIBD, Blair Custom Homes, Bethlehem, PA
Cool Roofing Colors

CR-735 Terra Cotta  CR-736 Wheat  CR-737 Sand  CR-738 Red Cedar

Actual colors may vary from printed representation.

Delivering a traditional, attractive solution, InSpire Slate Cool Roofing provides timeless sophistication compared to similarly-priced metal cool roofs to help meet every aesthetic, functional and sustainable need of discerning homeowners. Cool roofing can add one or more LEED points to the several potential LEED credits already available with our sustainable roofing.
Traditional Color Palette

InSpire’s Traditional colors for slate offer a vast array of rich selections, encompassing both time-tested hues and new, vibrant ideas. The versatility of InSpire allows you to choose a single color for a saturating richness, or a blended color for stunning dimension to present exclusive custom curb appeal.

Accessories

Snow Guards
Snow guards prevent dangerous snow and ice slides by holding snow on the roof allowing it to melt slowly and fall in small pieces.

CapMaster®
Simultaneously protects and beautifies, while helping to eliminate stack vent leaks.

Ridge Vent Cap
RidgeMaster® Plus offers a sturdy, no-dent construction that shrugs off falling tree branches and hammer strikes while blocking out weather and bugs. Easy, smooth installation with nailing and shingle alignment guides.

Hip and Ridge Tiles
Hip and Ridge tiles cover hips and ridges, available preformed for pitches 4/12-8/12 and 9/12-14/12.

Slate Hip and Ridge Tile  Shake Hip and Ridge Tile

RidgeMaster Plus shown with InSpire Slate Hip and Ridge Tile.

The Tapco Group®: Innovation is our Cornerstone

All of our brands at The Tapco Group® are firmly rooted in innovation. Focusing on maintenance-free beauty, easy installation, sustainability and delivering the most colors and product options, The Tapco Group is committed to Innovation Born from Original Thinking™. From the basement to the roof, we have your needs covered. We invite you to learn more about the complete range of premium exterior products offered by The Tapco Group. www.TheTapcoGroup.com

The Foundry®
The Foundry Specialty Siding offers the handsome warmth of shake and shingle siding and the inherent charm of stone and brick. Our proprietary manufacturing process uses hundreds of molds cast from real cedar, stone, and brick, giving your home authentic texture with artistic color and premium durability. An ASA cap keeps colors rich for a lifetime. Contractor-friendly 5-foot panels are unique, allowing easy handling, less scrap and faster completion of homes. The Foundry offers Class 1 (A) fire rated Shake, Shingle, Stone, and Brick panels. www.TheFoundry.com

Atlantic Premium Shutters®
When only the best will do, Atlantic Premium Shutters provide the ultimate level of sophistication for homes. Atlantic’s architecturally-correct shutters are handcrafted to each homeowner’s specifications, adding detail and dimension with operability or full functionality. The Architectural Collection’s cutting-edge construction lasts a lifetime, while its protective finish ensures the rich color you select will stay vibrant for years. www.AtlanticPremiumShutters.com

Mid-America Siding Components®
Holding more exterior-product patents than anyone else, Mid-America Siding Components help builders and contractors finish the job, with decorative products that install easily and provide standout curb appeal. Our innovations allow quick and efficient installation while delivering a finished look. Offered in the industry’s widest color palette, Mid-America products add versatile style to exteriors ranging from brick to fiber cement to stone veneer. www.MidamericaComponents.com

SturdiMount®
SturdiMount by Mid-America is the mount block of choice for providing fiber cement homes with a superior finish and a trusted water management solution. Integrating fiber cement with a durable nailing flange, SturdiMounts are pre-flashed and pre-assembled to save time, while also ensuring the cleanest finish for coach lights, hose bibs, dryer vents and other applications. SturdiMount products are the only mount blocks to carry the “Recommended by James Hardie®” logo and are cited in the Hardie Best Practices Guide under General Installation Requirements. www.SturdiMount.com

Tapco Integrated Tool Systems®
Serving professional siding applicators since 1961, Tapco Integrated Tool Systems allow for faster bending, safer cutting and customized exterior touches that distinguish their customers’ homes. Our brakes and full line of accessories offer quick measuring, efficient slitting and sawing, enhanced job site mobility and the ability to create value-adding decorative designs and strengthening ribs in fascia, window trims, frieze boards, porch posts and beams. www.TapcoTools.com

Wellcraft® Egress Systems
For code-compliance and peace of mind, Wellcraft Egress Systems provide critical escape routes while making basements more livable. The systems’ simple use delivers an emergency exit that even children can operate. Basements are enhanced by the addition of natural light and fresh air. www.WellcraftWells.com
