June 6, 2008

To Whom It May Concern:

This letter is to confirm that it is acceptable to apply Owens Corning shingles over Heat Barrier POLARALUM™ Underlayment as alternative asphalt saturated felt. The Heat Barrier POLARALUM underlayment must be installed in accordance with the manufacturer's application instructions. The use of POLARALUM Underlayment with Owens Corning shingles is not considered an Underwriter Laboratory (UL) fire rated system. The system must be tested in accordance with UL requirements to be considered a fire rated system. The Heat Barrier POLARALUM system should meet the requirements of the local building codes.

Owens Corning's Limited Warranty on Roofing Shingles is valid within the terms and conditions stated in the written warranty when Heat Barrier POLARALUM underlayment is used. Owens Corning's warranty does not cover workmanship or application, only manufacturing defects in the shingles. Owens Corning is not responsible for the performance of Heat Barrier POLARALUM Underlayment; Heat Barrier Systems Inc is responsible for the performance of their product. Any further questions regarding this issue please give me a call.

Sincerely,

A handwritten signature in black ink that reads "Mel Sancrant".
