  - 9910TR = \$5.18
  - 9915TR = \$7.38

## The more you buy the more you earn!

This is the time of the year when the temperature heats up and consumers are thinking about how to reduce their high cost of cooling. These vents work using the power of the sun with an option to power the fan after dark when sold with the Solar Controller™ - making them the best option in the market today. Offer these on every roofing repair or replacement and sales will come!
